KNOWLEDGE MANAGEMENT

Knowledge for people. Ready for AI.

Human-readable knowledge. AI-accessible content.
Governed throughout its lifecycle.

A new generation of knowledge management.

For AI-native companies, knowledge is an essential asset. Keep it governed, easy for people to read and accessible to AI, with human control.

On-premise support and flexible pricing. A capable alternative when an open-source knowledge base no longer meets your governance, integration or automation needs.

THE ELLER ADVANTAGE

Very fast interface

Work comfortably in a fast interface with a native WYSIWYG rich text editor. Make writing and reading part of everyday work.

Save time every day

Let the AI assistant help write articles. Automate approvals, translation and text verification with human control.

Unlimited customisation

Use full scripting and API access to tailor attributes, lifecycles and integrations to your organisation.

GOVERNED AND CONNECTED

- Tenant & space separation
- Full-text & vector search
- Strong permission controls
- API & MCP access

Put your knowledge to work
Explore governed knowledge for people and AI.

Easy to read. Powerful to maintain.

A welcoming reading experience and a capable editor, connected by governed content and flexible integration.

01 / KNOWLEDGE PEOPLE CAN FIND AND USE

Clear structure. Controlled access.

Separate tenants and spaces. Organise content in folders with custom attributes and strong permissions. Find knowledge through full-text and vector search. Connect AI tools through MCP and integrate IAM, mail, chats and external knowledge sources.

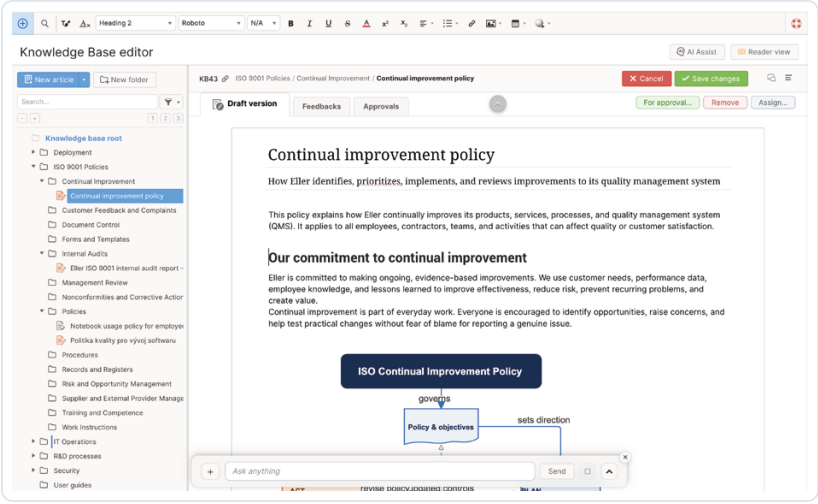

Reader view: folders, search and featured articles. English interface.

02 / FROM AN IDEA TO AN APPROVED ARTICLE

Write naturally. Let AI assist.

Create rich articles in the native WYSIWYG editor, with AI assistance for writing. Automate approval, translation and text verification. Manage attachments with versioning and export content to PDF. Use scripting and APIs to adapt the full lifecycle.

Editor: rich text, AI Assist and approval controls. English interface.

Your environment. Your commercial model.
Deploy on-premise. Choose a flexible pricing model.

Put your knowledge to work
Explore governed knowledge for people and AI.
