

RESOURCE MANAGEMENT

People and plans, in balance.

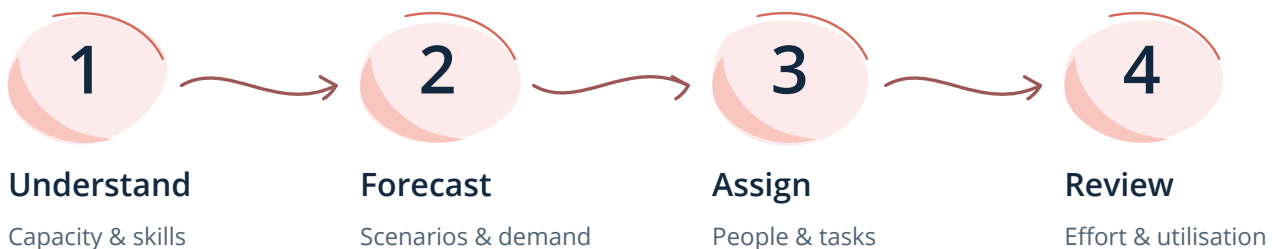

Plan availability, allocate work and track effort
in one shared workspace.

Make capacity part of every decision.

Connect people, skills, calendars and commitments to understand the capacity available for your next priority.

Coordinate current work and future demand using live resource information. Adjust allocations as plans change, with a shared view for managers, teams and suppliers.

FROM AVAILABILITY TO DELIVERY

THE ELLER ADVANTAGE

Very fast interface

A modern, AI-enabled interface with data governance supporting reliable AI-based processing and human control.

Save time every day

Keep plans, assignments and time reporting connected. Cut repeated updates and follow-up work.

Unlimited customisation

Adapt workflows, planning rules, views and permissions to how your organisation works.

CONNECTED CAPABILITIES

- Calendars, leave & part-time work
- Assignments & Gantt plans
- Forecasts & saved scenarios
- Timesheets & reminders

Put your capacity into perspective

Explore Resource Management with Eller.

eller.com/resource-management

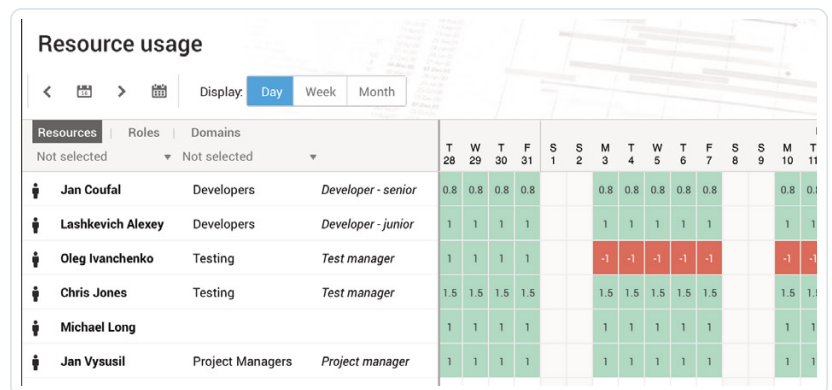

See the time behind the plan.

Connect available capacity, planned work and reported effort.
Give resource decisions a shared, up-to-date foundation.

01 / CAPACITY GROUNDED IN REAL AVAILABILITY

Know what is available

Bring calendars, leave, part-time schedules and project allocations into one view. Managers, employees and external suppliers can maintain capacity.

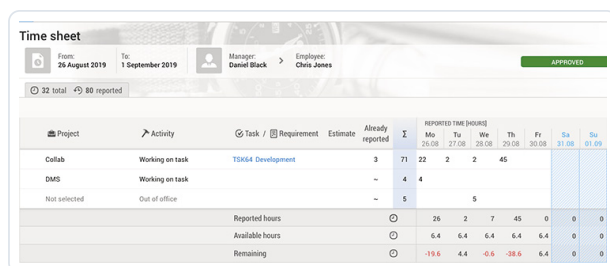

Resource availability across people, roles and time.

02 / PLANNED WORK AND REPORTED EFFORT

Make time reporting easier

Log project and task time with configurable periods, rules and reminders. Connect timesheets to monitoring tools or customer invoicing.

Project and task effort with reported and available hours.

Forecast before you commit.

Calculate forecasts from live data and save planning scenarios.
Use standalone or alongside Eller Demand & Project Management.
